WORK EXPERIENCE

Consultant Deloitte

03/2021 - Present

Achievements/Tasks

- Led a dynamic development team in developing a B2B Application with React and Nest.js, resulting in heightened business traction through an impeccably streamlined user interface.
- Engineered a comprehensive Progressive Web Application utilizing Angular and Node.js, seamlessly integrated with a Native Mobile counterpart, revolutionizing insurance filing by simplifying user interactions and enhancing accessibility.
- Architected an advanced Product Search Engine web application within a B2C framework, leveraging the capabilities of Next.js. This solution offers users a singular platform for discovering pertinent products and conducting comprehensive competitor product comparisons.

Associate Software Engineer Sunquest Information System

08/2019 - 02/2021

Achievements/Tasks

- Engaged in the development of a Laboratory Application utilizing Angular, Material Design, and RxJs, culminating in the crafting of an impeccably smooth and immersive user experience.
- Contributed to the development of a comprehensive COVID tracker leveraging React, Node.js, and MongoDB as a robust server, empowering authorities to proactively monitor affected individuals and implement essential preventive measures.
- Owned the responsibility of creating and maintaining reusable UI components to integrate in multiple product to reduce the development time and effort.

Member Technical ADP Pvt. Ltd.

08/2018 - 08/2019

Achievements/Tasks

- Developing new automation scripts and updating existing test scripts based on the test cases designed in the project using UFT Automation Tool.
- Maintaining Automation Suits and Analyzing test generated reports.
